

Upcoming Ranger Programs

All programs meet at **2:00 at the Lehman Caves Visitor Center**, unless otherwise noted.

Sunday, June 26

- ***Rattlers, Boomers and Whipsnakes, Oh My!***: Find out about the coolest creatures of the Great Basin living at your feet

Monday, June 27

- ***To be announced***

Tuesday, June 28

- ***Eclipse Mania***: Why do solar eclipses occur? Are there different types? Learn more and prepare to see the August 21, 2017 total solar eclipse across the US.

Wednesday, June 29

- ***Bird Songs***: Bird vocalizations expose us to, and remind us of, our own kinship with the lives and emotions of birds. Visitors will be encouraged to make noises.

Thursday, June 30

- ***Celestial Wonders of the Night Sky***: Learn about different types of clusters, nebula, and galaxies, and some tips for photographing the Milky Way.

Friday, July 1

- ***Hiking Nutrition***: Demonstration on how to make no-bake, high energy granola balls and tips on how to eat healthy before, during, and after your hike.

Saturday, July 2

- ***Bonneville Cutthroat Trout***: The Pleistocene lake Bonneville once reached the Snake Valley. After its waters began receding the life trapped in the valley was left in a fight for survival. Come learn about the Bonneville Cutthroat Trout whose ancestors retreated into the mountain streams over 10,000 years ago.
